

THE NINJARI CODE

Virtue. Vibration. Vision.

CHAPTER 1: AWAKENING THE CODE

The Code Remembers.

Within the depths of every soul lies a gentle hum-

a rhythm, a pulse, a whisper-

reminding us we are destined for more than the chaos of this world.

In this storm, humanity has drifted from truth, honor, and compassion.

Yet beneath the noise, the ancient melody persists.

The Ninjari Code reawakens this timeless resonance.

Forged from the precision of the samurai,

the adaptability of the ninja,

and the wisdom of the Jedi,

it offers a modern path to ancient virtues.

Here, values become frequencies-

patterns you can feel,

tones that realign your spirit.

In this journey, each virtue is linked to a chakra, a musical note,

and a mode-following the classical scale order:

C - Ionian

D - Dorian

E - Phrygian

F - Lydian

G - Mixolydian

A - Aeolian

B - Locrian

Use these scrolls as portals-invocations, rituals, riffs, and reflections-
to harmonize mind, body, and soul.

The path begins now.

The Way of GI:

GI is not perfection—it’s alignment.
Thoughts. Words. Actions. Intent.
When all four walk together—you are unshakable.

The samurai’s blade sings the truth.
The Jedi holds still, even when the galaxy spins.
The ninja vanishes only where there’s no contradiction within.

GI is clarity. Clean energy. Truth without tremble.

It is where all action begins and where every choice returns.
Like a root that feeds the tree, it is unseen but essential.
Be the one who stands when others sway.

CHAPTER 4: YU - COURAGE

YU isn't the absence of fear—it's the alchemy of it.
It's sacred heat that transforms hesitation into action.

About the Author

ABOUT THE AUTHOR: Dman

The Sound of Light, The Path of Shadow

Dman walks the edge of the unseen-where silence learns to sing and shadows learn to dance.

Raised by rhythm, forged in fire, and guided by a whisper of something greater, he is a seeker, a builder, and a warrior of peace.

His journey is one of many masks: construction worker, cook, driver, manager-but through it all, the constant has been music, honor, and the search for truth.

The Ninjari Code was born not from books, but from battle. Not of war, but of spirit. In a world that often forgets what it means to stand for something, Dman stands for the ancient within the modern. The child within the master. The riff within the silence.

With bass guitar as his sword, and virtues as his map, he offers this Code not as gospel-but as a groove. A living guide to realignment, reconnection, and radiant power.

To the outcasts, the misfits, the warriors of light cloaked in ordinary lives-this is for you. You are not alone. And your melody matters.

Quote: "Everything is energy. Put out good, good is received. Put out negative, negative is received. Simple. Your choice."

Dedicated to Kiel.

RIP. Miss you and love you.

The Path Continues

A code is not something you memorize, it's something you become. If you've come this far, then you already feel it: the pulse of the Code, humming beneath the noise of the world. You've walked through the scrolls, aligned with the chakras, felt the tones, and heard the call. Now, the real path begins. Being Ninjari isn't about being perfect. It's about being present. Being aligned. It's about living the virtues in small, everyday ways: in your words, in your music, in your silence. Walk in virtue. Play the tone. Be Ninjari.
